Policies and Fees Regarding Forensic Services

Forensic services are not covered by health insurance providers, and the cost of these services are incurred by the individual, referring attorney, or State agency.

My general fee for forensic-related activities (i.e., records review, report preparation, telephone consultation, in-office interviewing and examination) is \$190.00 per hour. Court testimony is billed at \$250 per hour.

Travel time is billed at \$160 per hour, which is my standard therapy rate and revenue I would expect to lose being on the road and unable to see patients.

If pre-payment has not already been arranged, I expect my fees be paid within 21 days of receipt of my final bill. You should receive an invoice with a few working days after the service is provided.

I do not charge for cancellations given seven days or more notice.

For cancellations between 24 hours and seven days, I charge 50% of the fee for time set aside in my schedule.

I charge 100% of the fee when given less than 24 hours notice.
